	APPROVAL OF STATE ENGINEER				
	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the				
	20648 Certificate 6086 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. This permit does not extend the permittee the right of ingress and egress on mubbic private or corrected lands.				
	public, private or corporate lands. The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. (CONTINUED ON PAGE 2)

505.0 Acres

The portion of the Existing Place of Use to be stripped is 1.395 acres within the NE 1/4 SW 1/4 Section 23, T.16N., R.19E., M.D.B.& M. as shown on the supporting map.

EXHIBIT "B"

This application is to change the point of diversion and place of use of a portion of Permit 20648, Certificate 6086. Utilize the Proof of Beneficial Use Map filed under Permit 20648 for the existing point of diversion and place of use. This application is for an underground right to supplement the surface rights under application 58734. The total combined duty of this application, applications 58724, 58734 and application to change a portion of Permit 50072 is not to exceed 5.0 acre-feet annually.

(PERMIT TERMS CONTINUED)

The total combined duty of water under Permits 58724, 58734, 58735 and 58961 shall not exceed 5.0 acre-feet and is limited to the irrigation of 1.25 acres within the place of use.

All surface water shall be used for irrigation prior to any use of the supplemental groundwater.
